EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Thomas Engellenner on August 8, 2006.

The application has been amended as follows:

in claim 10 in line 3, "as" has been changed to - - selected from the group consisting of - -;

in claim 18, in line 1, after "is" the following has been inserted: - - further adapted to be - -;

claim 29 has been cancelled and its limitations included in claim 28 which now reads as follows:

- - 28. (Previously Presented) A phototreatment system for use with a substance including a marker, comprising:

a radiation source to effect a phototreatment on a region of skin tissue;

an applicator configured and arranged to deposit the substance including the marker in at least a portion of the region; and

a detector assembly to detect the marker and to selectively activate the radiation source based on marker detection. - -;

claim 44 has been cancelled (see the Interview Summary of 1/5/2006);

Art Unit: 3739

claim 49 has been cancelled because its limitation was incorporated into claim 1;
and

in claim 50 in line 1, "claim 49" has been changed to - - claim 1 - -.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, Sancioff et al. is the closest prior art as detailed in the last Office action, however, Sancioff et al. only discloses an IV bag without a connector because the spike (connector) is part of the fluid transfer components and cannot therefore be considered "a container connector". Also the arguments presented by the applicant filed on 6/2/2006 are persuasive.

Regarding claim 28, Kurtz et al. is the closest prior art but the system lacks an applicator configured and arranged to deposit the substance including the marker in at least a portion of the region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Roy D. Gibson whose telephone number is 571-272-4767. The examiner can normally be reached on Tu-Th, 7:30 am-4:00 pm.
